Week of 11/10

Unfinished copy of the challenge bible released!

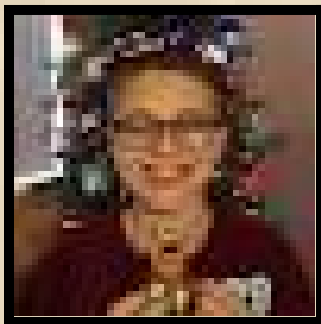

The challenge bible was created earlier this month and has since grown in popularity. After making it, the authors work tirelessly to finish it. Once an unfinished copy was released to the public, its popularity grew exponentially. Challenge workers employed by Challenge co.™ have demanded that this book be mandatory to read and its words be enforced harshly. Punishments are still being considered, but they are said to be unforgiving. Here is an excerpt from the first chapter: “In the beginning, there was challenge, and challenge was good. Then there was [REDACTED] and everything changed...”(unknown 1:1).

Study Shows Challenge Student Austin Feltz is Secretly Obama.

“It’s him, the resemblance is uncanny,” said an Anonymous Ghost. “The only difference is the glasses,” says Thomas Galvin, who takes 2 classes with him. “After pointing it out, I can’t unsee it,” says adoption request form assessor Emerson Beynon. “I...a.m...Barack...Obama,” confesses Austin himself.

Challenge workers riot for the official language to be changed to Glot

Most witnesses say it's all Remy's fault, but the cause of the riot is still unknown

Jaxton Ashton's Cause of Death May be Accidental Non-Existence, Rather than Flying Panda Abduction as Previously Thought.

An acclaimed forensic investigator, Quincy Johnson, looked at the lack of a body and stated, "While flying panda abduction accounts for nearly 40% of deaths without a body, it is unlikely to have happened to Jax because, yes. Based on the [nonexistant] evidence, accidental nonexistence is more likely because I can feel it in my bones." This theory is supported by the International Board of Flying Panda Abductions, which explained that they "didn't want to blame flying pandas for once."

Economics

3d printer stock crash

As Sawyer Quinn's song correctly predicted, the 3d printer market has crashed. Why? You may ask: Well, since the 8th-grade challenge, boys have stopped buying 3D printers; the economic high is over, but there are rumors of the 6th-grade challenge wanting to invest.

Massive or Not?

The low-taper fade meme is less massive. This has led to massive decreases in crypto. This directly caused the September crash. This could change everything. The impacts could be massive.

Orchestra Declares Universal War on Band!

Competition between the Orchestra and Band students leads to a full war declaration after an incident between the two parties. One orchestra student claims,

“We won’t stop until every instrument in the school is made of wood and has strings!”

Band kids, however, plan to have every instrument be covered in spit. One band kid was tragically stabbed with a bow when an Orchestra student attempted to play a staccato. He was rushed to the hospital for emergency surgery. Thankfully, the doctors say he is recovering very quickly.

Beans Facing Accusations From Relatives of Straws for being hard to pick up.

Relatives of the late straws are pushing to press charges against the beans. Analysts of the case believe this could be a multi-billion-dollar lawsuit with the right lawyers. The straw alliance, as they are calling themselves, will be the first to sue the Beans™ corporation in 11 years, if they can pull off this lawsuit.

Obituaries

The straws of Monday's lab have all died honorably. They were bullied and couldn't take it, so they just up and died.

One witness says:

“They were bad at everything and just couldn't do as well as us. So, they died, ya know, natural selection is a real thing.”

Another witness said,

“Ha, they died first, what a loser move.”

Spork: We sadly mourn the loss of our beloved spork. He was a utensil to some, a king to many. He will forever be remembered in our hearts.

Upcoming

NHD research started! Every week, the 5 people who have progressed the least will be terminated. The last five people standing will receive a \$5 Walmart gift card, and the number one placer will get a 12-page essay assigned by Mr. Guddat!

ELA Essay due November 20th, Ms. Nic is saying the best person will be awarded 112 million sicky notes. She says if they don't accept, she will be sad 😞.

Weekly Recap

On Monday, the main takeaway was the possibility of a new and improved family tree. This opens up new and confusing relationship statuses, such as Sither (sister + mother) or even Sather (father+son)(pronounced saw-thur). Although this may be exciting, it is currently only experimental.

On Tuesday, Kyden and Jacob died of eating too many beans in biology, and Ben in SS showed that he actually ate them. We passed around a card and put ~~hate~~ nice mail for Parker on it (Also threats to Marek). We should be ~~rude~~ nicer to people more often.

On Wednesday at recess, our beloved high Flute, Gus Langstaff, was tragically pushed by a hostile drunk ghost. We are all praying for him to be okay.

On Thursday, we kept working on NHD with people coming in to help us with our NHD research to make sure we were all caught up. Currently, the people who are the farthest behind in research are

1. Emerson
2. Kyden
3. Quincy
4. Remy
5. Jaxton

These people are in danger. Remember to say your goodbyes and never forget. Your body is awesome and amazing!!!

Friday,

"Yayayayyayayayayayayayayayayayayayayqyayyyayayaayayyaayaayayayay"
said Austin when we mentioned Friday. Today is a great day, the
people who will be terminated shifted dramatically overnight,
the terminated people will now be

1. Remington Harris
2. Everete Krievs
3. Ben Dunham
4. Parker Douglas
5. Easton aires

We say goodbye to our wonderful friends, and we hope their families won't be too sad, expect to see them in the obituaries next week.
