CIA discovers widespread plot organized by turkeys to reverse the roles next Thanksgiving

We went to an agent who has been working on this issue. For confidentiality reasons, their name has been redacted. [REDACTED]

has been working on this case for about a week. The day after Thanksgiving, they, along with a fellow agent, tapped into a phone call that exposed the plot. The movement is widespread and led by many individuals across the country. Already, plans have been laid out to stop the movement and are being put into motion. Late last night, one high-profile individual who was discovered to be part of the organization was assassinated by [REDACTED]. The CIA released that they suspect at least 400,000 to 1,250,000 turkeys are

involved to some extent with the organization, now called HNTD (Humans for Next Thanksgiving Dinner). The Department of Defence suggests visiting their website for information on defending yourself from turkeys.

As NHD research nears its deadline, students realize ‘it's over’

Some students who haven’t completed much research are likely to be executed for 1st degree not ‘NHD-ing’.

Sawyer Quinn’s video may hold some truth; about 6 or 7 students are at risk of facing serious consequences of not ‘NHD-ing’. The

editors of the newsletter wish the best of luck to all in danger.

Vandalism and Mr. Guddat on The Email Chain?

Mr. Guddat has actually responded to one of our weird challenge email chains! He is worried about defacing school property... Please come forward with any information about these vandals. Another response is only a matter of time. When will he strike next?

The screenshot shows an email thread with three messages:

- Zarian Marquez** at 2:04 PM (51 minutes ago): Isn't this great? A great grate if you ask me.
- Parker Douglas** at Tue, Dec 2, 5:09 PM (21 hours ago): Sup
- Guddat, Josh** at Tue, Dec 2, 3:35 PM (23 hours ago):
 - to Miciyah, Parker, Emerson, Nia, Everett, Mya, Elliot, Easton, Grace, Gidget, Grace, Marek, Mya, Jacob, Zarian, Austin, Willow, Khiana, Olive, William, Re
 - I am not sure why I am on this email chain, but I would suggest reporting the defacement of school property to the administration. I would also suggest using email for school purposes (like coordinating a group project, getting help on an assignment, etc.) so you don't get into trouble.

Below the messages, there is contact information for Mr. Guddat:

New book in the challenge?

Thursday morning saw the discussion among a few people about the possibility of writing a new book called "The Psychology of Challenge". One ghost said that the book could probably be summarized by the words: All challenge students are psychopaths!

Economics

Stocks on the Drop

Challenge Weekly stocks drop due to failure to produce a newsletter for the week of November 17. As the sole provider of quality news for the Challenge Program, many readers were enraged. The editors would like to remind them that the Newsletter workers are unpaid volunteers, and had to prioritize homework that week, but are planning to fix issues like these in the future.

Obituaries

As you likely know, we are still mourning the recent death of a friend, bully, and self-admitted alcoholic known under the name Ninechr. He will be missed by many, but hated by more.

Sawyer Paul Quinn, editor of the Challenge Weekly dies on December first

Sawyer was part of a grisly demonstration that involved him being ripped in half during Biology. His loss will be felt throughout challenge. The death also serves as a warning to think before being part of a demonstration in front of the class.

Good news for those who are behind on NHD!

2 weeks ago we told you to expect to see the last placers for NHD research in the obituaries. However, they were all saved as they did more work in the few days after the decision. Except for Everett, who watched Youtube shorts all class. We will not mourn your loss.

Upcoming

- 2 torturous weeks until Christmas break
- NWEA in ELA next week
